EXPERIENCE

Senior Software Engineer — *Trilogy Soft, Dhaka*

Duration: Oct 2024 - Present

- Leading end-to-end development of multiple web-based products with a strong focus on **system stability, scalability, and code quality.**
- Defining and enforcing **coding standards, architectural guidelines, and review processes** across the engineering team.
- **Collaborating with product, design, and business stakeholders** to translate requirements into **robust and maintainable technical solutions.**
- Mentoring developers and guiding them on **best practices, debugging approaches, and quality-driven development.**

- Overseeing sprint planning, task breakdown, estimation, and delivery timelines to ensure **predictable and on-time releases**.
- **Occasionally contributing hands-on code** for critical features and complex technical challenges to support the team and ensure architectural integrity.

Senior Software Engineer — *THESOFTKING Limited, Dhaka*

Duration: Oct 2021 – Oct 2024

- Works as a member of the 'Viserlab' codecanyon team at THESOFTKING Limited
- Established me as a **top-performing employee, significantly contributing to the product development team**.
- As a senior member of the core team, excelled in **leading and contributing to diverse projects** across multiple domains, including FinTech, AdTech, Analytics, CRM, EdTech, Blockchain, streaming, web applications, NFT, and more.
- Played a pivotal role in **setting coding standards, ensuring consistency and quality across projects**.
- **Reviewed code** to ensure it met coding standards.
- **Mentored junior developers**, fostering a culture of continuous learning and skill development.

Laravel Developer — *E-Light Software Limited, Chittagong*

Duration: 2020 – 2021

- Led project task distribution and monitoring in an IT startup company.
- Worked as a team member to complete projects, ensuring client satisfaction.
- Conducted client meetings for requirements and updates.
